Issue in sharp focus

Brag Park State High School's geography class has brought the refugee issue into sharp focus with a film about the topic.

Refugees in Australia, but *the Impossible Angels*, the film was planned and written by students, who also took starring roles on screen.

Pine Rivers Asylum Seeker Support spokeswoman Deb Emery said the film was designed to educate young people about refugees coming into Australia and give them an opportunity to express themselves.

The six-month project started with funding from the State Employment and Training Department and the school jumped at the opportunity to be a part of it.

Order video copies

COPIES of *Refugees in Australia* can be ordered by e-mailing prass@barc.org.au or phoning 3257 7536. Videos are free, but donations to cover postage will be appreciated.

what is -
'equal
opportunity'?

Another
non sense
word.
Means
'in-built
bias'.

huh?
If they
WERE 'equal' then
they won't need
the 'opportunity'.

greetings Aussies!
I am Antonio Iemma, dinki-di Ozzie
ALP Premier of NSW. Welcome new
fellow-citizens from Lebanon & other
Third World sewers. They've come to
pollute your gene-pool.

Shoot thru, Iemma,
you wog-maggot!

CRONULLA BEACH

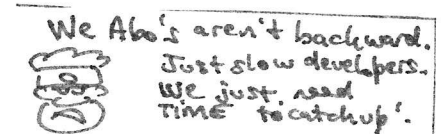

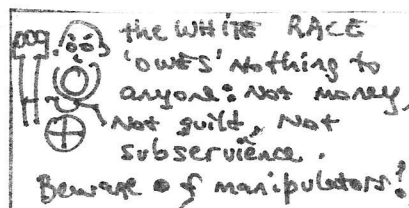

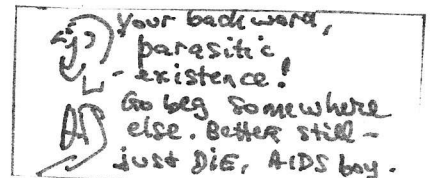

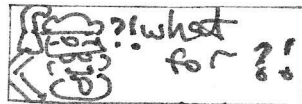

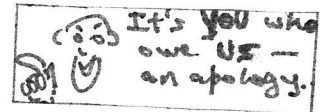

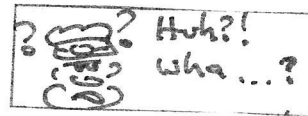

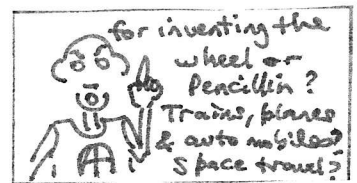

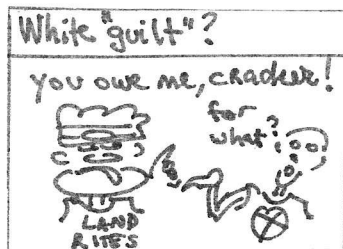

Clear out,
ya wog
bastards!

Get Lost,
Leb trash!

'Doctor' Pete Beattie's new Third World recruits to Qld Health.

38 April 2006 Brisbane's Child bookreviews

by Louise Pfanner and David Witt

Australia Locked Up by John Nicholson, Allen & Unwin, h/b, RRP \$29.95

John Nicholson seems to relish taking some of the driest topics around, and turning them into completely riveting books.

His latest book must have one of the least attractive, most child unfriendly topics of all time: crime and punishment in Australia, from the early penal settlement, to imprisonment in all its awful forms today. Written in a very matter-of-fact, friendly but didactic way (like a firm-minded schoolteacher), this book tells the history of every aspect of the penal system - the ghastly punishments, the horrible prisons, the prisoner-of-war camps - as well as fascinating statistics on who gets locked up. It is not only historic facts that the author imparts, but also very relevant, topical information that really questions the way Australia deals with those who transgress. Soberly illustrated with rather subdued pictures and detailed diagrams, this is not exactly a nice book.

Tough troop carrier masters its market

Ian McPhedran DEFENCE WRITER

US troops in Iraq, at risk of being killed or maimed by roadside bombs, will soon travel safely in an Australian-designed armoured vehicle.

The Bushmaster Infantry Mobility Vehicle has impressed commanders in Iraq where the US-built Humvee has provided little or no protection for their troops.

Roadside bombs are the biggest cause of coalition casualties in Iraq and US soldiers have long complained about the lack of protective armour on the Humvee.

Many troops have welded in steel plates themselves to provide more protection.

The Bushmaster, with

its blast-resistant V-shaped reinforced steel hull and other blast-resistant features, can transport up to 10 fully equipped troops at high speed across all terrains.

It also carries enough fuel and provisions to last three days.

Under the US deal, which is due to be signed within days, up to 1500 Bushmasters will be built under licence by US firm Oshkosh.

Australian defence firm Thales (formerly ADI) is building more than 400 of the vehicles for the Australian Army and another 50 for Dutch forces at its plant at Bendigo in Victoria.

Bushmasters were deployed to southern Iraq with Darwin-based forces in April 2005.

Iraq force fears» P35

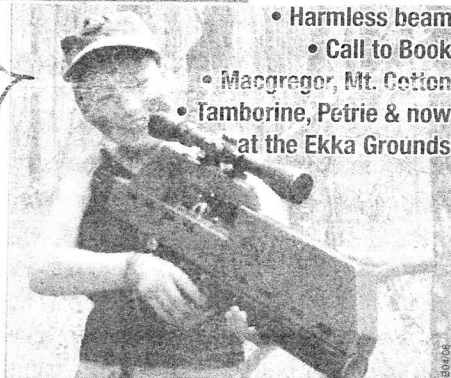

Editor: Revealed in STORM 49: (26.11.2005) Bushmaster IMV is based on South African Defence Force's Casspir AFV. We adopted SADF model, US didn't due to 'anti-apartheid' policies. Result: We've lost NONE in Iraq to 'enemy fire'; US has lost 3,600+

Business
Council of
Australia &
I.R. "reforms:"

I.R. reforms are
good for
the
country!

But 8
million
workers
will lose
their
rights...

that's
good!

But they aren't
"reforms".
They're unjust,
& unfair...

That's good
for
Australia!

Not for workers!
Just for the 100
CEOs of the BCA!

hehe... WE
are 'Australia'!
