

– There is no mention of holocaust or gas chambers in the memoirs of war leaders Winston Churchill, Charles de Gaulle, Dwight Eisenhower or even Bernard Baruch, head of Western Jewry and assistant to Roosevelt at the time.

“There are more survivors now [in 2001] than in 1945, and they all want money.”

– Norman Finkelstein . Jewish author.

“Bungling, exaggerations, omissions and lies are the signposts of that époque... It is inevitable that new documents will come to light which will shatter more and more the official story. The present, seemingly triumphant portrayal of the universe of concentration camps is destined to be doomed. What can be saved from it? Very little!”

– Jean Claude Pressac, Auschwitz expert of the Jewish Beate Klaasfeldt Foundation and author of 18 books on the camp.

“I was interned in concentration camps from 1938 until 1945, including three years in Auschwitz. I must state, in accordance with the facts, that in no camp did I ever come across an installation like a gas chamber.”

– Dr. Benedict Kautsky, Jewish inmate.

– Richard Baer, last commandant of Auschwitz (in and after 1943) and consequently a most important witness, of whom the Parisian weekly paper, *Rivarol* reported that he could not be dissuaded from his statement that during the whole time in which he had directed Auschwitz, he had never seen a gas chamber, nor had he known that such existed, unfortunately died suddenly on June 11, 1963, while being held for examination – although only 14 days earlier he had been thoroughly healthy.

“There is not a single document with the signature of Hitler, Himmler or Heydrich in which there is talk of exterminating the Jews.”

– Dr. Kubovy of the Jewish Office of Documentation in Tel Aviv, Israel.

According to the American Jewish Committee of the Synagogue Council, the Jewish population in 1939 was 15,600,000. According to that same organisation, the world Jewish population in 1948 was 15,700,000 – an increase of 100,000. According to the *World Almanac* of 1940, page 129, the total world Jewish population stood at 15,319,359. The same source states that the number in 1947 was 15,690,000. In the 1949 *Almanac*, page 289, the total was 15,713,638. **Where are the lost 6 million?**

The magazine *Nation & Europa* in its edition of Nov/Dec 1998, stated that West Germany did not have enough crematorium capacity to incinerate its dead bodies and instead sends them to the Netherlands. It was stated in the magazine that only 5 bodies could be cremated in 8 hours. According to Jewish sources 90,000 bodies were cremated daily in the concentration camps. **Does this mean that advanced cremation technology has been lost in the last 50 years or so?**

“Ultimately, Cramer returned to Buchenwald as a soldier in the US Army, visiting the camp just after its liberation in February 1945. Cramer saw corpses ‘piled like wood, and people were dying in front of us’ after eating US Army rations, which were too rich for the emaciated Jews.”

– *Martin Cramer's Return to Germany*, Jewish Telegraphic Agency.

(The real reason why Jews died of hunger in the camps is the bombing by the allies of all German transport, with the result that no food could be sent to the inmates. –Ed.)

“In 1966, the World Centre for Contemporary Jewish Documentation, an official Jewish operation, indicated that 1,593,232 Jews perished in the War. This still ridiculous figure was given for Jewish interests. The White public was yet besieged by the ‘liberal’ mass media with the 6 million count. An abundance of evidence now exists [and continue to emerge] to totally refute the propaganda.”

– James Combs, *Who's Who in the Zionist Conspiracy*, p39.
