

AMERICAN FUEHRER by F.J. Simonelli, a book review by E. Thomson

This is obviously a 'mainstream' (kosher) biography of Commander George Lincoln Rockwell. Mr. Simonelli may be one of the tribe, or a shabez Goy in need of status and shekels, for his approach to his subject is definitely kosher-partisan, and yet, he reveals the extent of jew media-control and jew authority in the U.S.A. almost as well as Rockwell. The jewish policy of restricting, distorting and denying the Goyim (the majority of the electorate) news about personalities and issues reflects the jews' fear of democracy, specifically in their treatment of Rockwell and his ideas. They chose, as always, not to debate him, but to censor or "quarantine" him. No matter how they tried to demean him, Rockwell had the hebes scared, as revealed by their actions against him, despite their public pronouncements.

Like ex-Mossadnik Victor Ostrovsky, Mr. Simonelli reveals the plethora and power of jew organizations in the U.S.A., including their role in influencing law enforcement authorities, from the FBI down to the local police. Rockwell said it, but few believed him. Simonelli says it and backs up his statements with jewish sources. His section on Notes indicates his extensive and thorough research.

Much of this biography, in respect to Rockwell's personal life, echoes THIS TIME THE WORLD, Rockwell's autobiography. Rockwell described his often painful experiences with family members during his process of maturation, as well as his broken marriages. As usual, a kosher biography must include attempts to perform a Freudian-style psychoanalysis on the subject, at secondhand. Simonelli attempts to please in this regard, but he reveals Rockwell's quite sane and rational responses to his family members, some of whom were domineering, some submissive; some supportive, some antagonistic, &c. This appears to be the human condition, with which jews are never, ever satisfied. Simonelli uses this ad hominem approach to a limited extent, for he knows that he must discredit Rockwell, even slightly, or go unpublished. The knowledgeable reader knows, however, that all people, great or small, can be subjected to antagonistic secondhand psychoanalysis as a smear tactic. Sometimes, as in the case of Karl Marx, there is no way other than complete omission or fabrication to obscure his own objective character dysfunctions.

Those who favor those in power view an individual's or a group's rebellion against authority in a critical and/or negative fashion. Simonelli describes Rockwell's rebellion in this context, but he reveals the extent of Zionist authority in U.S. society while doing so, just as Rockwell intended. Once the existence of this power is acknowledged, one can admire Rockwell's courage and determination to tackle it, on behalf of Gentile interests. Rockwell was as 'needful' of psychotherapy in the U.S.A. as any critic of "the workers' paradise" would have been in the U.S.S.R. Are the Chechens 'crazy' because they fight for their existence and their independence as Chechens? By the same token, the Floundering Fathers of the so-called American Revolution must have been just as crazy when they became 'terrorists' and 'illegal combatants' against their king. Insanity is in the eye of the beholder, and those with the power to define, control, as Orwell observed. It is definitely in the ZOG's interest to have us believe that Rockwell and his White Nationalist successors are 'crazy', and, if we don't believe that, the ZOG will offer the political pretext that White Nationalists are 'terrorists'.

Simonelli attempts to deal with the racial issue by claiming that there can be no such thing as 'racial contamination' (adultery). He styles race as a social convention, like the jew, Israel Ehrenberg alias "Ashley Montague". Obviously, if race is a social fiction, so is genetic science. If this is so, why does the ZOG continue to push 'racial' integration and enforce laws against 'genocide' on a selective basis? Why harm Whites, if we "don't exist"?

Inadvertently, or by design, Simonelli reveals the dramatic contradictions, the outrageous hypocrisy, of those who claim to support 'democracy' and 'freedom of speech'. Jews are revealed to seek freedom of speech for their interests, and to smother those who disagree with them. Judeo-democratic regimes tout their 'democratic' freedoms, then use laws and tactics entirely befitting the most brutal of Orwellian tyrannies, against those who have the 'wrong' ideas. As one writer said, "jews tout universalism on behalf of tribalism." We must remember that when jews talk of 'humanity', they mean only themselves. This explains the apparent contradictions.

Rockwell, as he is quoted, knew that he could come to power only via crisis. He predicted race-war, followed by economic collapse, starting with massive inflation. We are likely to discover that Rockwell's response was far ahead of the ability and willingness of the Goyim to comprehend what is in store for us. Once again, Simonelli describes Rockwell as politically irrelevant, but that Rockwell established a legacy of followers. Thus is the reader led to believe that "his truth goes marching on." ORION!

3) bellies are full & they have entertainment, they are in Hawg Heaven, so let the ZOG or the Devil take tomorrow! The sign of human intelligence is the ability to think ahead. Whites & Asians survived in cold climates because they planned ahead. Those who didn't, perished.

Unfortunately, we have lost the habit or the ability to think ahead, which is why the hebes were able to impose the strict thoughtcrime laws in "Soviet Canuckistan", assisted by their Zionist Goy stooges, of course. The same thing is happening here, with different excuses.

One advantage White Nationalists have is the increasingly militant non-White nationalists, such as the Black Muslims & La Raza Unida, which declares the USA to be territory stolen from Mexico, which they call "Aztlán". By creating their own identity, they help us create ours. They think racially, so we must also. This Zionist-bankster-inspired genocide aimed at White extinction may cause White Resistance thereto. It didn't wake up Rhodesian Whites, because they all had someplace to run to. Those who stayed because they loved their land more than their lives, died, or ^{are} in the process of dying, as Black bandits kill them off with government connivance & approval. It is rumored that the slaughter of Whites in South Africa will occur after the death of Nelson Mandela. As usual, Whites are doing nothing. What can we expect of dummies who GAVE AWAY their country without a fight? So what is our dumb excuse? Land is what people need to live, so when we give away our land, we are giving up our lives, as we might understand, if we could think ahead, even a little bit, say, to the next generation of Whites. I guess we are still too comfortable. I say OINK! to that. Whitey is being fattened for slaughter, & it appears that the fat has run to our heads as well as our bellies.

I really find it disgusting to listen to Liar Bushy, so I let the jews talk for him. Jews will discuss what he is about to say, after they have written his speech; Gerson is Bushy's speechwriter, as I read. Then Bushy spews out his sheenie statements, after which the jews reappear to tell the sheeple what Bushy said & what he meant when he said it. Then more jews appear to discuss possible outcomes of what Bushy said for them. I'd prefer to hear the sheenie source of what Bushy blabs, rather than undergo his brain-damaged statements.

The skinhead movement began as a White reaction to an existence with no future. Skinheads were White workingclass youth who were unemployed by alien invasion & job exports. In other words, skinheads began as nihilists. In hippie parlance, "they were on a death-trip, man." The movement took on racial overtones when skinheads began "paki-bashing", but their weak point is their self-destructive craving for booze & drugs. One Vietnam vet called it "chemical warfare." I call it self-inflicted chemical warfare. Such people are easily derailed, distracted & diverted by ZOG. Because they see themselves as throw-aways of society, skinheads seek "badness" by reacting against social conventions, although they are now fashionable in some parts of society, more as fashion statements, not political nor racial badges. In Zionist-ruled society, what could be worse than Nazi emblems? Like the 'bad' Hell's Angels, they sport Nazi insignia & emblems, but National Socialism, as I've explained in my talks with skinhead groups, was not self-destructive nor anti-social, for its basis was the 14 Words. To realize the 14 Words, the government must make it safe & possible for White parents to have White children in the first place. This is where the 14-Worders fall far short of understanding the need for White Nationalism. Hitler said that the government or state protects the race, & the race protects the individual. Since we live in an anti-White state, White children are at its disposal. We must "connect the dots" if we are to desire an effective way of realizing the 14 Words. This way is ORION! which includes 14 & 88 for these times. The skinheads who say the 14 Words are liars if they consume drugs & alcohol, thereby damaging their ability to produce & to raise White children, as so many do. By defying the ZOG openly & stupidly, skinheads also deny their ability to raise the children they produce, but if one is on a "death-trip", he has no reason to think ahead. It's far tougher to raise White children under ZOG than it is to be a skinhead, who just wants to go out in a blaze of glory or drugs. This is the basic contradiction I see in the skinhead 'movement', since I'm all for White Survival, outside the ZOG-gulags. The Hammerskins published good advice for skinheads, so they could stay out of jail, but it is obvious that most have not followed such advice. Warriors do not do things which weaken themselves & parents keep themselves fit so they can achieve the 14 Words. Why are bad people in power? Because we put them there & we keep them there, under ZOG. This is because we behave like pigs & sheep, instead of men. All the best & ORION!

 P.S.: I have resisted the ZOG to the best of my ability for decades without breaking the law. I've been deported from 5 countries, beginning with the USA, but I was recently licenced by the Washington State Gambling Commission, which requires one to be 'squeaky-clean', with no felony convictions, unlike those who occupy some political offices in this country. But, I haven't 'done anything,' like setting myself on fire in protest, &c. Nor do I intend to!
