

P.S.: Many thanks for the latest edition of The Idaho Observer, with its articles on Venezuela's populist leader, Hugo Chavez. Obviously, the Jew Ass Oy Veh cannot carry on 'business as usual' in its satellite countries of Latin America, especially those which have oil, as they did when I was in Peru, under a phoney 'nationalist' military junta. Oil-rich countries include, as I last heard from people in the business: Mexico, Colombia, Venezuela, Ecuador, Peru (still to be fully-developed), Brazil, & perhaps Chile & Argentina, whose Malvinas or Falkland Islands are reportedly floating on oil. As we know, oil is becoming more valuable as a commodity, especially in terms of the worthless zogbuck. We also know how anti-social are bankster policies in regard to these oil-rich countries with their population explosions, so there is extreme pressure on those countries' governments: please the IMF & World Bank (sters) & you mightily displease your people. Please your people & you displease the banksters. Apparently, the Zionist jew Wolfowitz will now head the so-called IMF OR International Monetary Fund, so this situation bears close scrutiny. As China enters the oil-guzzling picture, the U.S. oil racketeers & banksters are not likely to have things their own way, as in the past. Venezuela's Chavez is by no means alone, for I gather from the jewsmedia that he has lots of support for his policies of political & economic independence in oil-rich Brazil.

The banksters object, violently, to any country which wants to pay off its "national debt", & thereby become economically independent. When the Colombian druglord Lehder offered to pay Colombia's debts with his drug profits, agents of FEDZOGUSA swooped down to abduct him. As far as I know, Lehder is still in a Florida ZOG-gulag, along with Bush Sr.'s old CIA money-launderer, Noriega of Panama. Their biographies would be great reading! It appears that it is safer to remain a druglord, rather than it is to be a patriot. Poor Colombia!

The ZOG in The District of Corruption appears ready to take on the world, but can Israel come to the rescue? Only if they can stop selling us out to China for a moment! Can the Jew Ass Oy Veh bribe & browbeat the whole world? I think not. It appears that the days left to FEDZOGUSA are indeed numbered, & it lacks sufficient Goyim to pour into its insatiable military Moloch, with or without a draft. The current supply of dumb Goyim are being killed & maimed in Iraq. The Zionist-Bush junta is becoming increasingly similar to the juntas of Latin America: broke, unstable, & now lacking in oil, as well as bananas. In regard to the number of hispano-mestizos, we are 'rich' indeed! Bush is not called "El Presidente" for nothing!

Speaking of Colombia, which has muchos mestizos, as well as sambos (Black-Yellow mongrels), it will be entertaining to see if the JEW ASS OY VEH can enlist Colombians against the Chavez government, using the old J.P. Morgan tactic of "hiring ½ to shoot the other ½." I know that Colombians are vicious & violent, but are they also as stupid? Stay tuned!

Race is reality. The U.S.A. is an illusion designed to exploit those who still believe in it. Demographic change changes identity, & change of identity brings changes of interest. That's why Cinco de Mayo is dwarfing 4th of July celebrations in Mestizo America. The U.S.A. is like a can of chile beans which erroneously bears a label which says "Boston-baked beans". Too bad the reality is not as tasty as the analogy! DOWZ! & ORION! E.T.
